

Holiday Ornaments

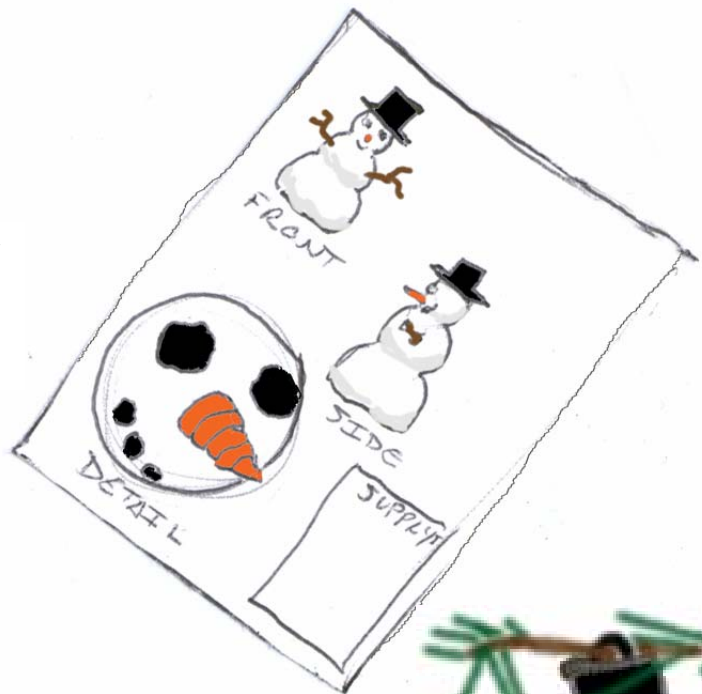

Step 1:

Make your design. You need to show your ornament from at least two views. You also need to show a “detail” or close-up of one part of your ornament.

Remember—use only simple shapes to create your design!!

Step 2: *Color your design using colored pencils. Don't forget- we never leave white space showing through! ☺*

Step 3: *Write a supply list—what things will you need to bring from home to glue on to your ornament after it's been baked? Do you need paper clips for armatures?*

Step 4: *Create your ornament! Remember- the clay needs to be cooked in a 275 degree oven for 15 minutes per ¼ inch of thickness. After it's cooked, you'll bring it back here for painting and for anything that needs to be glued on.*
