

DISTRIBUTION OF MATERIALS

The board recognizes that non-profit organizations may want to distribute materials in the school district that are non-curricular but that have recreational or educational value for students.

Any non-profit group wishing to distribute informational material to students must first submit, to the Communications/Community Relations Office, a copy of the material and a statement of the recreational or educational value the program provides to students.

Informational materials to be distributed must also be approved by the building principal and meet certain standards prior to distribution. The primary purpose of the standards is to prevent the exploitation of students by individuals or groups.

It is the responsibility of the superintendent to develop procedures regarding this policy.
